**For Beginner
& Advanced Snooker Players :**
Teaches You The Secrets Of Top Professionals

■ Cue Ball - Positional Play / Cue Action

This side shows you the mental map that professionals use to plan their cue ball control in any shot.

Split into a green central line for beginners, and red advanced areas for side spin.

Demystify positional play once and for all !

■ Object Ball - Aiming, Sighting & Potting

This side shows a simple two step method for finding the correct contact point to pot the object ball.

Training your eyes to find the correct 'Potting Point' on the object ball is vital for potting straight and angled shots.

Give your eyes the short-cut to potting success !

■ Cue Ball Calculator - Break Building

Place this free disc on your practice table where you want the cue ball to land.

The three simple steps written on the ball FORCE YOU to plan your positional play like a professional.

This dramatically increases the speed that you learn and improve your positional play and break building!
