

McDermott H-SERIES

VARIABLE BALANCE POINT (VBP) WEIGHT SYSTEM

Our brand new H-Series is the first line of cues ever to feature the fully-adjustable Variable Balance Point (VBP) weight system. This breakthrough is made possible by our patented new technology that combines a full-length carbon fiber core with a rail on which the weights can be repositioned forward or backward inside the cue. No other cue allows you to have this much control over both the weight and balance.
